Projects

"Lacks" (Rails, React, JavaScript, PostgreSQL)

[live](#) | [Github](#)

- Integrates Pusher API and web sockets for real-time messaging and channel updates
- Allows GIF posts with custom AJAX requests to the Giphy API filtered by tag name
- Uploads images to the cloud using AWS S3 for secure and scalable asset storage
- Performs specialized CRUD functions with custom SQL queries and Rails controller routes

Conway's Game of Life Simulator (JavaScript, jQuery, EaselJS)

[live](#) | [Github](#)

- A simulation of Conway's Game of Life built with JavaScript, jQuery, and EaselJS
- Renders an interactive, click-able grid with playback options and dynamic speed slider
- Imports and parses cell patterns from text and generates them onto the game grid

HackeyQuery (Javascript)

[live](#) | [Github](#)

- A JavaScript library for DOM manipulation, selection, and traversal with minimal overhead
- Simplifies HTTP requests by making XML HTTP requests with sensible defaults and callbacks, transforming JSON data into plain Javascript objects, resulting in significantly fewer lines of code

Skills

Ruby | Ruby on Rails | RSpec | JavaScript | jQuery | ReactJS | Redux | SQL | Git | HTML5 | CSS

Education

APP ACADEMY

2016 - 2016

Full stack web development bootcamp, 1000+ hours, <3% acceptance rate

TUFTS UNIVERSITY

2009 - 2013
